TOTAL MATCHES – adding up all the scores for a total			

Mark all the answers you got a match for and add 2 points, zero for the rest. Write the total out of 100. This gives you the percentage of answers that are the best fit to the ideal profile. This gives you your **EQ (Entrepreneurial Quotient)**:

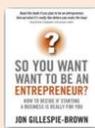

My EQ (Entrepreneurial Quotient)	%
---	----------

The higher the percentage, the greater the possibility that you are suited to be an entrepreneur and the closer you are to exhibiting the characteristics of successful entrepreneurs.

Remember this is just for fun!

It gives you quick snapshot of how you feel now but there's no right or wrong – and most exciting of all even if you don't have a high EQ now you can learn a great deal of the traits and things you need to know – so the idea is to get a quick health check now and learn as you go along with some focus on areas for improvement.
